Percentage

74.20%

## WORK EXPERIENCE

### Software Developer(React Developer)

Optimizory technologies Pvt Ltd.

09/2022 - Present

New Delhi, India

Optimizory is a first generation enterprise started by technopreneurs who bring a fresh perspective to the world of business.

DETAILS

- Participated in the initial wave of developers learning and implementing the React JS library
- Used advanced JavaScript to create a cross-browser compatible user interface
- Prepared monthly reports based on the data from the product team and presented results during meetings.
- Designed a new, user interactive landing page, utilizing tools like HTML and CSS, achieving a 5.5/6 user score
- Tested, debugged, and shipped 10s of 1000s of lines of code to various development teams
- Requirement Management, REST API Testing, Requirement Engineering, Web API Testing, and Test Management

Contact : Pankaj Jangid (Founder) - -pankaj@optimizory.com

## PROJECTS

### LINKS EXPLORER (01/2023 - Present)

- This project Links Explorer Traceability & Hierarchy is an excellent enhancement over traditional Jira issue links. It allows you to trace, analyze and report the progress of linked JIRA issues, Epics, and Portfolio hierarchies dynamically. ect
- Working with a team of 7 people
- Participated in daily sprint meetings
- Started Understanding LXP-cloud from scratch. So many concepts were cleared and made me a good React developer
- Worked upon LXP-Cloud

### PORTFOLIO WEBSITE (10/2022 - 11/2022)

- This project portfolio website made with REACT JS (using Props, Context API, Styled Components .ect)
- Some of the components we include in our portfolio could be a header section with name and contact information, a section showcasing your projects or work experience, and a section with skills and education. we include a section with testimonials from past clients ,friends or employers
- We can use various React JS libraries and tools

### FIND-GITHUB-USER (08/2022 - 08/2022)

- This Project is made with React JS
- In this project we can finding github user details using github username
- In this project we are brought to Github API and we used many array method

### PERSONAL WEBSITE (07/2022 - 08/2022)

- This Project is made with HTML, CSS and JAVASCRIPT
- Working with a team of 3 people
- we include in our portfolio could be a header section with name and contact information, a section showcasing your projects or work experience, and a section with skills and education
